If you are typing a general street name, you will receive all ZIP + 4 code ranges along the road or area. As the number of people and cities grew, more numbers were added. At the time, the postal service was looking for ways to simplify the way it did business because of what so many employees they left to serve in the war effort. The Zones Improvement Plan (ZIP), as was known, facilitated the identification of the destination of the letter, which in turn simplified the delivery procedure for postal employees. If you are in a particular hurry to get your mail to your destination, you can find a ZIP code using the tool on the U.S. Postal Service website mentioned above (as well as many other similar sites), provided you know address the location you are looking for. However, searching for a ZIP code should not be so complicated. A simple search on Google or another large search engine can reveal the location related to a ZIP code and vice versa.
